

Jason and Kate

Kent County

Rising to the occasion that is life

Jason and Kate have gone above and beyond as foster parents. They provided care to a child who experienced trauma and embraced the experience with open minds and hearts.

Jason and Kate continually seek and utilize suggestions from professionals as well as researching on their own. They have a desire to provide the best care possible and to meet the individual needs of a child.

They have been dedicated, resilient, and willing to parent with a trauma focus.

Having never parented before, Jason and Kate have shown wisdom and knowledge, beyond any expectation.

Jason and Kate's licensing worker states, "Jason and Kate have been a pleasure to work with as foster parents and the agency is fortunate to have the family as part of the team to support and bring hope to young people."
