

# Sonyia and Peter

## Oakland County

### From fostering to adoption to giving back

Sonyia and Peter are being recognized as exceptional foster parents because of their dedication and commitment to children. Sonyia and Peter have three biological children, one child adopted from overseas, two children adopted from the foster care system and they are currently fostering twin toddlers. Sonyia and Peter are welcoming, loving, caring and compassionate parents. They are the type of parents who will do whatever they can for a child in their home. Aside from caring and providing for the children in their home, Sonyia and Peter often provide donations to other children, and never ask for anything in return. In addition, Sonyia and Peter have committed to being mentors to other less experienced foster parents. They are willing to communicate with them, meet up with them, and get them connected to fostering and adopting support groups in the community. Sonyia and Peter know how important it is to provide a loving, stable home to children and as parents, they truly go above and beyond!
